TRUST
THE VOTE
PROJECT

A Presentation of the
Open Source Election Technology Institute

VOTING INFRASTRUCTURE IMPENDING CRISIS

TRUST
THE VOICE
PROJECT

A Presentation of the
Open Source Election Technology Institute

situation

- niche government technology market
- with high fault-tolerance requirements
- exhibiting dysfunction and malformation
- resulting in high market concentration

The Business of Voting

Market Structure and Innovation in the Election Technology Industry

 PENN WHARTON UNIVERSITY of PENNSYLVANIA PUBLIC POLICY INITIATIVE

A Presentation of the
Open Source Election Technology Institute

situation

- needing innovation in an industry lacking commercial incentive
- removing the heavy lift of R&D from commercial shoulders
- making a critical ingredient of systems a public asset
- turning to open source to catalyze industry rejuvenation

TRUST
THE VOTE
PROJECT

A Presentation of the
Open Source Election Technology Institute

open source

- what it is not
- what it is
- challenges
- opportunities

TRUST
THE VOTE
PROJECT

A Presentation of the
Open Source Election Technology Institute

what it is not

- open source is *not* a technology
- open source is *not* a panacea
- open source is *not* free

TRUST
THE VOTE
PROJECT

A Presentation of the
Open Source Election Technology Institute

what it is

- open source is a development process
- open source is a distribution means
- open source is a transparency enabler

TRUST
THE VOTE
PROJECT

A Presentation of the
Open Source Election Technology Institute

challenges

- procurement + licensing
- development
- security
- distribution

THE VOTE
PROJECT

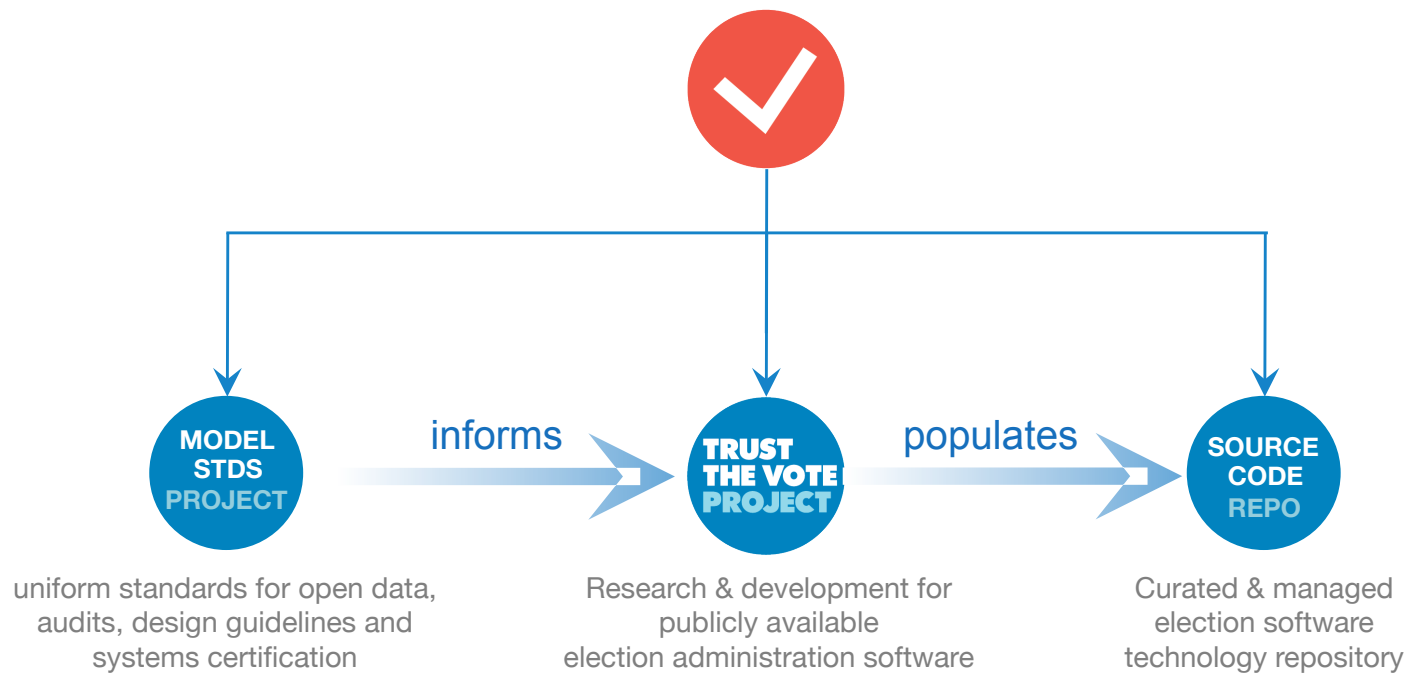

A Presentation of the
Open Source Election Technology Institute

opportunities

- integrity
- cost
- security
- innovation

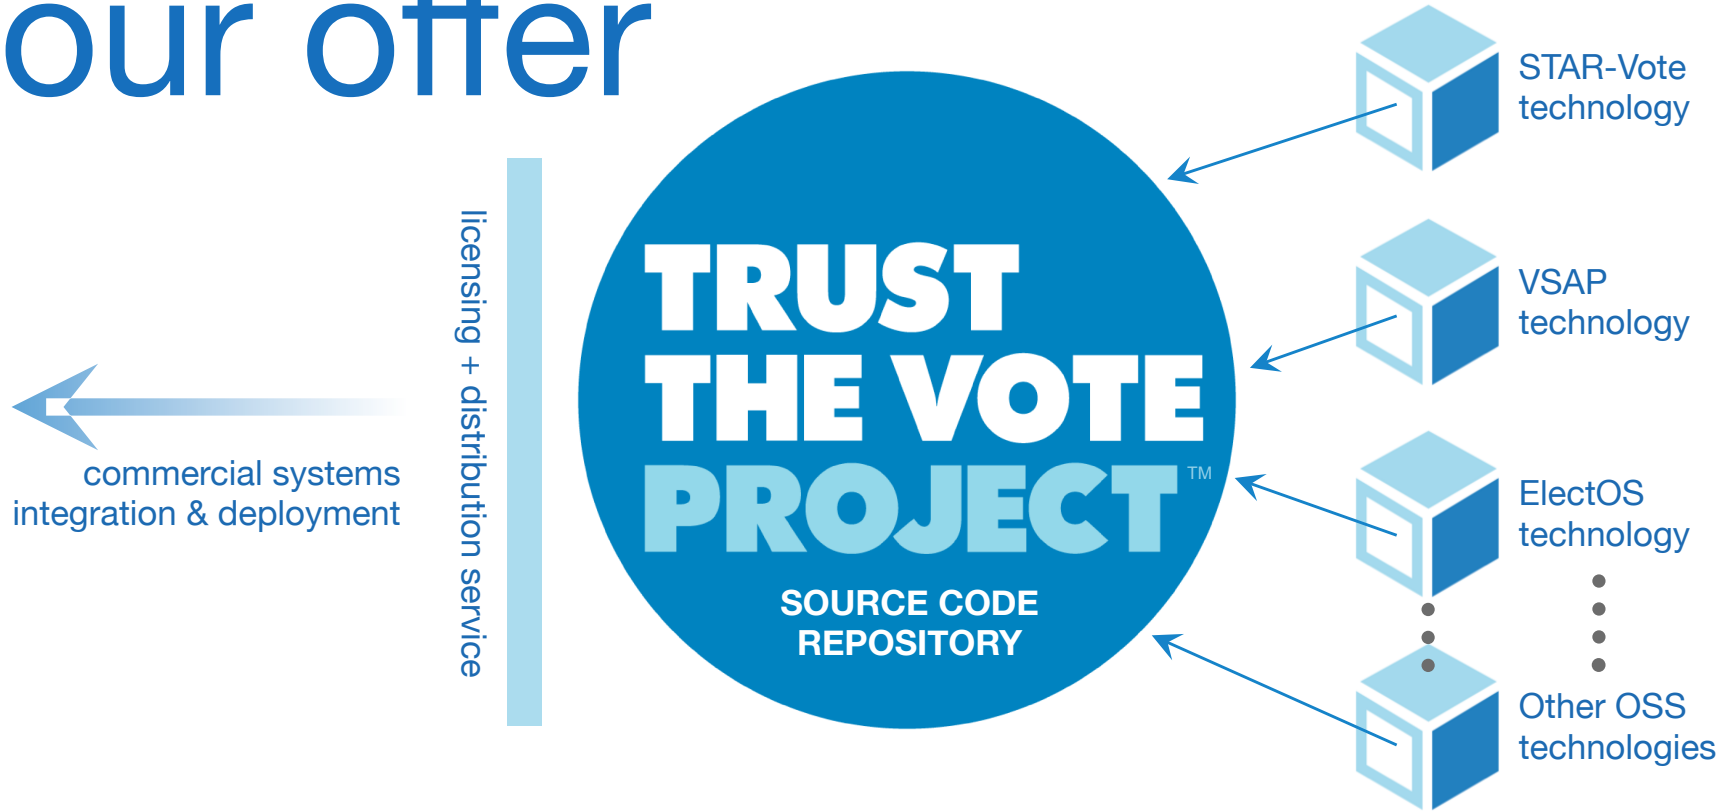

our approach
